YARNS & COLORS

YARNS & COLORS "META28", their digital resource integration platform, offers a unique digital online yarn spot service with a minimum order of 1kg. It also houses a comprehensive design platform, providing one-stop services from professional design solutions, design programming, 3D modeling, and AI intelligent design to proofing, production, and sales, making it an ideal partner for textile industry professionals.

YARNS & COLORS is a key player in the R&D, production, and sales of fancy and blended yarns and a trusted supplier to numerous global fashion brands. Their commitment to 'spinning A Better Future' is evident in their original intention and business vision. They have earned many certifications, including Oeko-Tex® Standard 100, RWS, GRS, GOTS, FSC®, SFA, and more, underscoring their dedication to quality and sustainability. With its market mastery and ample stock, YARNS & COLORS is ready to support your re-orders and give you more choices. Their adaptability ensures they can meet your changing needs, making us a reliable partner in the textile industry.

The latest 25/26 autumn and winter series is a unique 'sensory space' that combines the four series of projection, exquisiteness, sobriety, and deviation, covering our perception, emotion, and memory of autumn and winter products. It offers a wide range of yarn options, from flowing metallic feel, high-end velvet, luxurious feather yarn, gorgeous sequin yarn, playful big belly yarn, knot yarn, and ponytail yarn, to the ECOSNOWY series available in all seasons, and anti-pilling stretch yarn. These yarns, each with its unique appearance, create a knitting world as soft as clouds. A special cashmere series has also been launched, combining the high-end performance of natural materials with modern aesthetics, which has become increasingly dazzling over the years.

CYPRESS
2/120NM, 53% Silk, 42% Cotton, 5% Cashmere
High-grade silk cashmere yarn improves the functionality of knitted fashion, retains the soft and high-grade characteristics of cashmere, and overcomes the shortcomings of pure cashmere products, such as shrinkage and wrinkling. It is more comfortable to wear, silky, soft, light, breathable, and high-quality.

LOIS
1/10NM, 65% Baby Alpaca, 33% Nylon, 2% Spandex
It is a cost-effective and easy-care machine-washable brush yarn. It uses an extremely high proportion of imported alpaca wool; the fabric is fluffy, thick and warm, silky and skin-friendly, and not easy to pill.

NADA 1/2.8NM, 82% BaWool, 18% Nylon
The special cloud-like coral fleece effect looks fashionable. The fabric is not easy to shed, is skin-friendly and comfortable, and is light and warm. It suits knitted clothing such as pullovers, socks, gloves, blankets, hats, scarves, etc. It is also a preferred product for children's wear and home clothes.

VELOUR II 1/8NM, 100% Nylon
Exquisite and luxurious chenille yarn, soft and elastic feel, light texture, retro trend; smooth suede, not easy to pill and wrinkle, is the perfect combination of fashion and comfort.

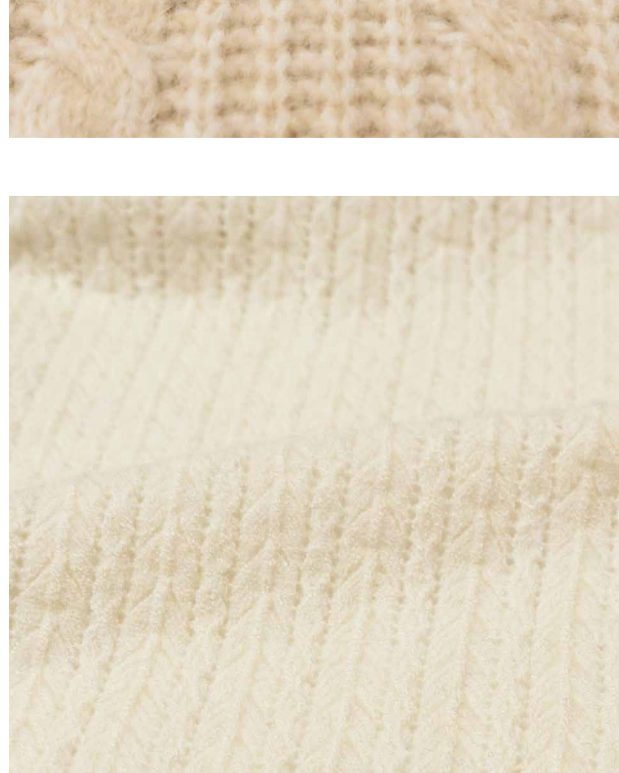

GUOTAI HUASHENG

Guotai Huasheng Industrial (GTHS) is a leading yarn supplier that develops and produces a wide range of yarn, including cotton spinning, worsted, semi-worsted, woollen, and various fancy yarns. Adhering to the concept of sustainable development, GTHS focuses on the development trend of eco-friendly emerging materials and processes.

They have developed products certified by GRS, GOTS, RAF, and Oeko-Tex100 and can-do carbon footprint tracking calculations for specific products. GTHS has invested and established multiple entities at home and abroad, as well as offices in London, Los Angeles, Barcelona, HK, Shanghai, Bangladesh, Myanmar, Vietnam, and Cambodia, to provide customers with fast, comprehensive, accurate services and promote the pace of global fashion innovation.

Bestsellers A/W 25-26
GTHS-24BS002
1/3.3NM, 53% Cotton, 35% Acrylic, 12% PBT
This classic core-spun yarn, made from a cotton blend, offers a fluffy and warm hand feel. The core structure inside the yarn enhances the fabric's thermal insulation performance. The cotton fiber provides excellent moisture absorption, sweat dissipation, and good wear resistance, ensuring a comfortable wearing experience. In terms of style design, it is ideal for creating various heavy gauge knitwear stitches such as cables, handmade pompoms, textured stitches, etc., adding a unique sense of fashion. Due to its outstanding qualities and unique style, it has become one of the best-selling yarns in the US market.

GTHS-24BS024
1/3.8NM, 62% Recycled Polyester, 29% Acrylic, 5% Nylon, 4% Wool
As a bestseller in the North American market, its lightweight and fluffy texture provides a comfortable and warm touch. Made from recycled polyester, it embodies the concept of environmental protection and aligns with the current consumer focus on sustainable development. It is dominant in the North American market due to its excellent texture, competitive pricing, and eco-friendly concept.

GTHS-24BS026
2/48NM, 47% Rayon, 26% PBT, 25% Nylon, 2% Cashmere
The core-spun yarn has always been a classic bestseller. This fine-gauge core-spun yarn contains cashmere fiber, resulting in a softer and more delicate hand feel. This enhances the overall texture and elevates the appearance of knits. It maintains an elegant style while keeping the price reasonable, significantly increasing the market competitiveness of knitwear. This product is undoubtedly worth attention for consumers seeking high quality and cost efficiency.
